Dear COMAL implementor,

You will find three (3) attachments with this letter.

1. Invoice for the financial year 1 April 1987 to 31 March 1988. As I do not know the contact point within your organisation to whom invoices should be sent I have mailed EVERYONE on my address list for your organisation. Please excuse the replication and pass the invoice on to your Financial Director.
2. A survey of ALL implementations (including language of of documentation) by your company. I would also like details of your agents/distributors if not yourselves. I am frequently asked for such details, and would like to offer a more comprehensive service. Any sales literature would be appreciated.
3. Proposals/comments which have recently been sent to me by Len Lindsay (COMAL USA).

I hope to hear from you in the near future.

Yours sincerely

John Clack  
(Secretary)

Please find enclosed an invitation to the COMAL Standards and Development Group Meetings in Portsmouth, England.

An application form for more details of the conference site and accommodation is enclosed - please return this directly to Roy Thornton, who is organising the meeting.

Those in the Standards Group will also find a paper from Peter Burkinshaw enclosed.

The Development Group Meeting is open to ALL with an interest in the COMAL language. You will be most welcome - you can attend for only part of a day if you wish.

The Standards Group is made up of those manufacturers implementing COMAL - only they can vote. However, others interested may attend and contribute to those sessions.

If you cannot attend, I would still like to hear from you. Any ideas that you may have for the progress of COMAL, or news of its use in your area, would be most welcome.

To encourage contact between people who have shown an interest in COMAL I enclose an address list. Please use it, and let me know of any inaccuracies and any additions to be made. I would also like to know of your current activities, and details of COMAL implementations that you are using, or of which you know. If you do NOT wish to remain on the mailing list, please let me know that too.

Yours sincerely,

John Clack  
(Secretary)
